"ILER"
FAMILY

ANCESTRY

FOREWORD

This pamphlet of material (book) is unique. It has been put together specifically for the recipient. While it has been compiled by the author, credit for much of the material it contains and a great deal of the research associated therewith needs to be given to many many other people. It is far from a solo effort.

The author's oldest known progenitor is Conrad Iller (168e-1751). At this writing he had no confirmed brothers or sisters. However, most families in the era in which he lived had a considerable number of children thus it is strongly believed he was in fact a member of a large family. He and his wife Margaret had six children, four girls and two boys.

It has been stated by several researchers that Conrad did indeed have brothers and sisters in America. It is also highly probably there were cousins, uncles, aunts, and other members of his "family" who also immigrated to North America, but none have been able to be verified by the author.

At this time the author is aware of several hundred small "Iler" families (3-9 members), perhaps 25 medium-sized families (10-49 members) and about a dozen families having over 50 members. One family is known to have over 6,800 members, this latter group all being descendants of Conrad Iller. The author is one of this group.

It is believed that many of the immigrants in the 18th and 19th centuries whose names bear a phoenetic resemblance to Iler, Euler, Eiler, Eyler and still others, are in fact in some way related to Conrad. The author has not thus far devoted time to this non-North American continent facet of "Iler" ancestrial history. One or more of Conrad's descendants spells their name Iler, Eilar, Eiler, Eyler, Oiler, Oyler, Iller, Euler and perhaps yet other ways.

Anyone who has occasion to review this material is urged to contact the author and provide corrections, additions and the like so the study and compilation can be expanded and become more reliable and complete.

FAMILY NAME

The various ways the original family name (Euler) has been spelled, especially in the early years in America, has made research very difficult for those involved. Not only has the spelling of the family name caused much confusion, but given names handed down through two, three and four generations, combined with the change of spelling of the surname has made it difficult to separate the different branches and families. There are 28 or more variations of the name. There are atleast 13 variations in the Conrad Iler ancestory line.

Eiler	Euler	Ilar	Iller	Oiller	Oyler	Oiler
Eilar	Eyler	Iler	Oiler	Ouler	Oylar	

The name EULER is one indicating a profession: in elderly German it means "potter". The sphere where the name was originally used embraced mainly southern Germany and adjacent territories - The Palatinates, Hessen, Switzerland, etc. It has been suggested Hessen was the very center where the name was taken up to use, but firm evidence is hard to find.

Ernest Drumm, a German genealogist, indicates ".. about 1450 a branch of the EULER family went down the Rhine River to Zweibrucken, Palatinate, Germany .... they scattered over Germany where the name was Germanized into EILER."

From the preceding it is evident that when the family first took the name, it was for their occupation and the name was EULER. However, as our branch migrated down the Rhine River farther into Germany they took the name of EILER.

The name of the immigrant of our family as shown in the ship list (Allen, 1729) is, CONRAT ILLER [C]. The name of his eldest son, Jacob [C4], is spelled EILER and EYLER in the records. His desecendents today spell the name, EILER, EILAR, EYLER and ILER.

The records for the youngest son, Valentine [C5], show the spelling as, EYLER and OILER. He signed legal documents "F.E." and the name was spelled FELTY EYLER. His descendents spell their name OYLER.

Perhaps the two greatest controversies within the family was religion and the spelling of the family name. The family has remained Protestant in all the branches. Perhaps the most predominant denominations are the Brethern and Lutheran.

The spelling of the family name has been brought about by our ancestors trying to Americanize the name and yet give the sounding of the original German name. This in some instances has been done on the advise of school teachers and others in authority.

FAMILY NAME - Cont'd

Those effected who felt the name had the sound of I, descended into Eiler, Eilar, Eyler and Iler. Those who felt the name should have the Oi or Oy sound of the German spelling EULER descended into the OYLER family.

From the above it is very obvious why legal documents such as Wills, Deeds etc. the name is spelled differently even in the same document.

In the Samuel Eiler family [C431-I], the two older sons retained the spelling EILER. The three younger sons changed the spelling to EILAR.

In the Will of F.E. (Valentine) Eiler [C5] his name is spelled four different ways - EILER, EYLER, OILER and OYLER.

CONRAD ILLER

In establishing CONRAD ILLER as the immigrant and progenator of our family in America, legal, church, historical and migration records were searched (by Dr Eilar, and are shown in his book) which establish his family, probable date of birth, date of death and probable dates of birth of his children.

He was a member of the Brethern church group who sailed with Alexander Mack, one of the founders of the church, from Rotterdam Holland July 7th 1729. The ship Allen, James Craiges master, sailing by way of Cowles England and landing in Philadelphia September 11, 1729. Conrad Iller qualified September 15, 1729 as did all the other passengers. On landing at Philadelphia, Mack lead them to a small community on the ourskirts called Germantown.

Germantown, settled about 1685, now completely absorbed in the City of Brotherly Love still retains it identity. It's history is filled with many important events in the history of America. It was the stopping place of many early German immigrants. It was here the Creyfelt group of the church under Becker had stopped after landing in 1719, and it was only natural that Mack's group should stop there before migrating to other parts of the country.

It is found in the Pennsylvania records that Conrad Eyler [C] and Jacob Eyler [C4] each appeared on the same day and took out Warrants for tracts of land, 200 acres, in Lancaster County, October 3, 1738. To establish a home in a wilderness of virgin forest in the early days was no easy task.

Getting Warrants did not mean the land was their's until certain obligations were fulfilled. The part of Pennsylvania where they were to settle was in no way calm and peaceful. There was much controversy as to who was rightful owner of this particular area. The boundary line between Pennsylvania and Maryland had not been settled in 1738. It was many years later before a definite line (Mason-Dixon line) was established and agreed upon. As a consequence those coming from Pennsylvania got their Warrants from Pennsylvanis, while those coming from Maryland got theirs from Maryland.

Conrad Iller-Eyler was born in one of the Palatinates in southern Germany about 1690. Came to America in 1729, with a family, finally settled in Manheim Twp. York Co. Pennsyvania, and died there in 1751. His wife Margaret was born in Germany before 1700 and died in Manheim Twp York Co PA previous to 1763.

This is a reproduction of the first page of the Introduction to a family history and compendum of data compiled by John S. Eilar, D.D.S. and published about 1965.

The title is: The Eiler, Eilar, Eyler, Iler, Oyler and Associated Familes

INTRODUCTION

The compiling of this history has been an arduous task covering a period of over thirty years, requiring the writing of many hundreds of letters--probably numbering in the thousands, many miles of travel, research by qualified genealogists, as well as my personal research checking state and county records and records in libraries and Historical Societies.

The primary work was done from 1935 until the beginning of World War II. During the war I was forced to lay aside the work, then resumed the securing of data about 1950. Since that time additional information has been secured but in many families one, or perhaps two, generations have been born which are not included in our history. Many dates of births and deaths are not listed, however I have endeavored to list names and have reserved places for dates of many of them.

A family genealogy is a continuing and never ending work. It is my hope that several branches will be continued by some of the descendants.

In the last few years all available records have been searched and the information on our early ancestry has been exhausted. Not until this time have authentic dates, information on migration, land transactions and family connections been informative enough to warrant writing of this history. Even after diligent search, there are still records unavailable or destroyed that would shed more light on the family.

In order to compile the data and write this history, many obstacles were encountered. Our early ancestry was all German. Few, if any, could speak English and the manner in which they pronounced their name--one time using Oi and the next Ei--caused those who were writing the names in the records and on documents to spell it the way they thought it should be spelled in English. Because of the different ways in the spelling, using Euler, Eiler, Eyler, Iler, Oiler, Oyler, etcetera, it was difficult to follow the family lines and know what references were made to the same person. In some of the wills two and sometimes three different spellings were used. In one family, the name spelled Eiler, Eyler and Iler on the headstones of the father, mother and daughter.

The descendants today have now settled on these spellings for their branches; Oyler, Eyler, Iler, Eiler, and Eilar. I have used the spelling in this work as found in the records and in the manner in which those with whom I have corresponded spell their names.

In the beginning there is no doubt but that our church affiliations were with the German Baptist and Brethren---some times referred to as Dunkers and Dunkards because of their method of baptism. Because of their disbelief in keeping records except in the family bible and also not believing in in infant baptism, no records were kept in the church. The church played a great part in the lives of our early ancestry. At the time of the war of the revolution there were about 800 members of the Brethren church. Factions sprung up within the church, some broke away and formed their congregation according to their beliefs, others affiliated with other denominations, marriages and influence of prominent ministers drew others away until today our family is made up of many denominations. One thing is very noticeable, few, if any, reverted to Roman Catholicism. The Brethren Church has continued to survive and today is one of the prominent protestant denominations. Valentine Eiler, the progenitor of the Iler, Eiler, Eilar branches was steadfast in church affiliations and many of his descendents still remain in that faith.

Because of the deep religious feeling in the family, especially of the early generations, I have made the first chapter a "History of the Church."

It may be of interest to know what gave me the incentive to write this history and how the family data was secured.

My lineage is Conrad, Jacob, Valentine, Samuel, Jacob, John. My grandfather, Jacob, was one of the sons of Samuel who changed the spelling of the name from Eiler to Eilar. Jacob moved from Wayne County Indiana to Hamilton County and with his death close family ties were lost to my family. Moving to Albuquerque, New Mexico I was placed farther away from the relatives and homestead of Samuel in Wayne County Indiana.

In the early years of searching for members of the family and securing data, three factors were responsible for many long letters. First, skepticism and lack of interest; second, my being far away from the original homestead and the majority of members of the family; third, the spelling of

ILER GENEALOGY

(Euler, Eiler, Eilar, Eyler, Oiler, Oyler, Ohler, et al)

Any Iler immigrant of whom I have knowledge had their roots in Europe. Many families seem to have had early roots in Switzerland and then migrated over a period of time to Germany and thence to the North American continent.

There is strong evidence some Iler families in the U.S. and Canada today have a connection with one another in Europe. That is to say, the families came to North America separately, maybe even years apart, and were perhaps cousins or otherwise related before their arrival. They may not even have had contact with one another since their arrival in America.

The earliest Iler I have uncovered in America dates to a little before 1700. I have evidence of the ILER name as far back as the 1200's but with no continuity in any "family group" until after the late 1600's.

Numerous individuals before me have spent many many hours of work, even years, researching and compiling Iler historical data. For much of the information currently available to me I am deeply grateful to a great many people for their efforts.

WHAT I AM TRYING TO DO and WHAT I NEED

I am trying to expand upon the above mentioned work of others and compile a comprehensive record, a history (or at a minimum a compendium), of ILER's in North America and their descendant's, past and present.

What I need most is simple facts about you and your family. In return I will be pleased to provide you, as best I can, with print-outs relative to your family and ancestors, similar and or additional, to some of those enclosed.

May I have information concerning you and your family. Use the enclosed "Demographics" sheet, plain paper, or a copy of some document(s) you may have..... a family bible? ANY and all information is of interest and will be greatly appreciated.

Early data, or the name of anyone else who may have or have access to such data, is epecially welcome.

FT-OBJ

MORGAN B. ILER

I was born in Guelph, Ont. Canada, 7/27/1917. My father was 30 years older than my mother, a 2nd marriage for him. He was 66 when I was born. He spent 44 years as a Canadian Customs & Excise officer, serving in Quebec City, Que and, Belleville and Guelph, Ont. among other locations. My mother was born in Belleville but at an early age lived in the US. She trained and graduated in 1912 as one of the first registered nurses (RN) in the country. Until her marriage in 1914 she worked primarily in and around New York City as a governess for a number of well known families of that era.

My father retired in 1922 and we moved to Florida in 1925. He died in 1929. I received my elementary and high school education in St. Petersburg. Following graduation from high school in 1935 I returned to Canada and spent nearly 23 years in Canadian banking. During these early years I completed correspondence courses leading to a degree from Queen's University.

From 1942 to 1958 received numerous promotions ending as an Inspector serving principally in the field of auditing, inspection and operations. In the early 1950's I was asked to organize and set up the bank's first "Methods and Organization" department which had a general responsibility for operating procedures and similar matters for 1000+ branches of the bank, world wide.

From mid-1958 to early 1962 I was an Asst Vice President of Norwest Bancorporation in Minneapolis. Worked in the field of bank operations with emphasis on the then infant, early computer usage by the banking industry during that period.

Became Vice President and Cashier of the U.S. National Bank in Omaha in the early 1960's. Before resigning in 1971 to start my own bookkeeping, accounting and tax preparation business, I was responsible for most of the bank's internal operations including the initial installation of a comprehensive computer system. My family and I became naturalized American citizens in 1969.

In mid-1971 I started Iler Financial Services (subsequently Iler Taxkeeping Services Inc) which was operated successfully until the business was sold earily in 1986. During the 15 year period of my ownership the business served (and continues to serve) a wide range of small businesses providing them with bookkeeping, computer, payroll and other services along with business and personal income tax preparation.

Over the years I have participated in a great many seminars, courses, conferences, lectures and related learning experiences. I "retired" in 1986 but still am providing counsel and part-time assistance to several local firms in the areas of my diverse general business and computer experience.
